

ACID NEUTRALIZER

KEEPS THE ACID AWAY

- No Solids or Solid Residuals
- Easy to Use, No Complicated Charts
- Compatible with ALL Refrigerants
- Compatible with ALL Lubricants
- Neutralizes Acid in Recovery Equipment
- Safe, Will Not Harm System Components

Part # HS18002

R3 AC LEAK REPAIR

Repair - Restore - Reveal

- All-In-One
- Quick Sealing Small Leak Repair
- Lubricator
- Conditioner
- Seals Multiple Leaks
- UV Dye to Reveal Larger Leaks

Needing Repair

Part # HS60002

THAWZONE

Frees a Frozen System in Minutes . . .

The Original Liquid Dehydrant
for Control of Moisture in
Refrigeration Systems

Part # HS17002

TRACE²

INTERNAL REFRIGERANT
LEAK DETECTOR

With
Superbrite
UV Tracer!

- Works under all conditions!
- Not affected by noise!
- Not affected by wind!
- Visible in bright light!
- Visible under ultraviolet light!
- For refrigeration, air conditioning and hydraulic systems!

Part # HS21002

AC LEAK REPAIR

Lubricates and revitalizes the AC System. Not activated by moisture or oxygen.

- All-In-One
- Quick Sealing Small Leak Repair
- Lubricator
- Conditioner
- Seals Multiple Leaks
- UV Dye to Reveal Larger Leaks Needing Repair

R3-AC Leak Repair® will stop leaks of refrigerant gas in air conditioning and refrigeration systems. R3-AC Leak Repair® is compatible with all refrigerants and refrigeration lubricants. It's polymer-free, tested to be non-clogging to the A/C compressor and recovery equipment — it's a permanent fix.

- Seal Existing Leaks in Condensers, Evaporators, Hoses, Gaskets and O-Rings
- Renew O-Ring and Seal Elasticity
- Lubricate Moving Metal Parts
- Prevent Future Leaks

Will R3-AC LEAK REPAIR fix my leak?

In general, R3 is designed to seal an AC system that has slow leaks losing refrigerant over time. Maximum leak size approximately .05 mm. The system must be able to hold a vacuum on the low side for 30 minutes, at a minimum. If the vacuum leaks out or changes, the hole is too large to be sealed and mechanical repairs may be needed.

R3-AC Leak Repair® extends system life and quiets noisy compressor. Improves system lubrication up to 1200 %. Reduces energy consumption. Improves efficiency of older AC systems.

R3-AC Leak Repair® is compatible with all refrigerants and refrigeration lubricants. It's polymer-free, tested to be non-clogging to the A/C compressor and recovery equipment — it's a permanent fix.

Application for Refrigeration Systems 1 to 6 Tons.

Safe For Reclamation Equipment
Recommendations for Charging Inside Package

- For Professional Use Only -

CAUTION: Do not ingest. Avoid eye and skin contact.
Warranty Limited to Replacement of Product.

Part # HS60002

- No Solids or Solid Residuals
- Easy to Use, No Complicated Charts
- Compatible with ALL Refrigerants
- Compatible with ALL Lubricants
- Neutralizes Acid in Recovery Equipment
- Safe, Will Not Harm System Components

The BEST Acid Treatment Available! Works Fast, Circulates Quickly Can Prevent Compressor Burnout

Safe For Reclamation Equipment
Recommendations for Charging Inside Package
Application for Refrigeration Systems 1 to 6 Tons.

**Neutralizes Residual Acid Caused
By Compressor Burnout.**
**A vital part of any
preventative maintenance program.**

- For Professional Use Only -

CAUTION: Do not ingest. Avoid eye and skin contact.
KEEP AWAY FROM CHILDREN.
CALL 1-800-255-3924 24 HOURS.
Warranty Limited to Replacement of Product.

Part # HS18002

**With
Superbrite
UV Tracer!**

Locates leaks exactly - Never a false positive. No batteries required. No calibration needed. Safer than Halide torch. Works on all size leaks - even leaks due to metal porosity. Works in wet and humid conditions. Even shows through ice and frost.

Trace2® is a Red Dye, fluorescent tracer type leak detector for refrigeration, air conditioning and hydraulic systems. It is a concentrated dye penetrant with a fluorescent additive that is completely harmless to refrigeration and air conditioning equipment. Versatile, accurate and reliable leak detection. Easy to use and inexpensive.

Safe For Reclamation Equipment

Trace2 is designed to be universally compatible in all refrigerants and refrigeration lubricants, including but not limited to all: CFC's, HFC's and HCFC's.

Recommendations for Charging Inside Package

Application for Refrigeration Systems 1 to 6 Tons.

Kit Contains:

- 1 - 2 Ounce Plastic Injector pre-filled with 2 ounces of Trace2®.
- 1 - Set of Instructions for application of Trace2®.
- 1 - 12 Inch Pro Tech Service Charging Hose with Control Valve
- 2 - 1/4 Inch SAE Service Valve Caps

- For Professional Use Only -

CAUTION: Do not ingest. Avoid eye and skin contact.
KEEP AWAY FROM CHILDREN.
CALL 1-800-255-3924 24 HOURS.

Warranty Limited to Replacement of Product.

Part # HS21002

The Original Liquid Dehydrant for Control of Moisture in Refrigeration Systems

Frees a Frozen System in Minutes . . .

- All new Formulation - no methanol.
- Use with or without solid dryers.
- Safe and non-poisonous.
- Biodegradable, non-polluting.
- Compatible with all refrigerants and refrigeration lubricants.
- Aids with oil return in low temperature systems.
- Enhanced moisture control in even the most advanced systems.
- Helps prevent the formation of acid.

THAWZONE® is completely safe. It will not corrode any parts of a refrigeration system and is usable in all types of equipment, large or small, open or hermetic and is compatible with all refrigerants including but not limited to all CFC's, HFC's and HCFC's.

Application for Refrigeration Systems 1 to 6 Tons.

Kit Contains:

- 1 - 2 Ounce Plastic Injector pre-filled with 2 ounces of Thawzone®.
- 1 - Set of Instructions for application of Thawzone®.
- 1 - 12 Inch Pro Tech Service Charging Hose with Control Valve.
- 2 - 1/4 Inch SAE Service Valve Caps

Safe For Reclamation Equipment
